Introduction

MESKOREA is supporting the development of medical science through the distribution of medical devices to governments, militaries and educational institutions. Moreover, to develop medical education program for future medical education system, we developed a company based on mutual trust with those who are dedicated to medical education.

Organizational Structure

Business Field

- Fire Department

One of our major customers is the firefighting department. It had become our duty to regularly manage and deliver the emergency rescue equipment and supplies.

- Military, Maritime Police

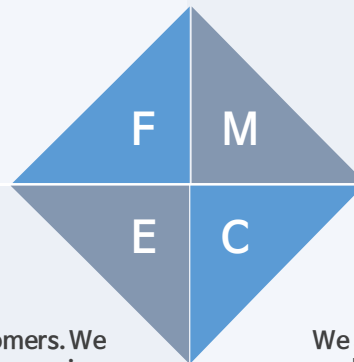

We also deliver some supplies, equipment and patent holder products to the Military and maritime police. These are all sent and are being used by the Army, Navy and Air force.

- Educational Institutions

Educational institutions are also one of our major customers. We assist them and deliver equipment for health aid such as nursing, emergency rescue, medical school and physical cure course.

- Private Companies and Facilities

We also provide for private companies and facilities. However, we distribute AED based on the statute (law obligation). Thus, our efforts to distributing to POSCO, CANON, POST OFFICE and many other companies and facilities.
